Design Teams

This page lists the design teams for MEC723.

Background

Read about [teamwork](#). Students will be grouped into design teams based on the results of a *personality type indicator*. Read about [personality type indicators](#) before proceeding.

In order to take the PTI for this course, you must know the course number and your section, and your student ID. Once the design teams have been established, they will be posted in this web page.

[Take the PTI test now](#) (You will need your CAS ID and password to take the PTI - **ONLY** if you haven't already done so).

Teams

The teams are based on PTI information as of the *deadline noted by the instructor*.

IF YOU DO NOT SEE YOUR NAME IN A TEAM, you must:

1. make sure you took the PTI
2. email salustri@ryerson.ca, providing
 - your full name
 - your section number
 - your student ID
 - your personality type (e.g. INTJ) according to the PTI

Professor Salustri will then fit you into a team as quickly as possible and email you when that has been done.

Only *additions* to these lists will be considered. **No other changes will be considered.**

Listings of teams will appear here once teams have been formed.
